Dr. Mark Crapo

"Do you want to feel and look better - find out how you can by using Symmetry health products."

Heart disease is the number one killer in the United States and a top contender in other countries. Vitamin E is known to protect and strengthen the heart and blood vessels along with a host of other health-promoting benefits. Vitamin E is the body's most important fat-soluble antioxidant and nutrient. In essence, it ensures the stability and purity of cellular tissues and membranes throughout the body by preventing free radical damage. Symmetry's Botana-E is known to be one of the best ways to get the right amount of Vitamin E per day. In fact, our formula contains 400 IU Vitamin E in just two caplets - a dose studies indicate to provide the greatest health benefits, but very difficult to obtain in an average diet. Rely on Botana-E for a healthy heart, a healthy body and a healthy you.

▶ **The Botana-E formula is the best protection money can buy with two caplets containing:**

- Vitamin E from many natural d-alpha sources, which are more bioavailable, in a unique food base.
- 400 IU of Vitamin E per dosage.
- A full spectrum of tocopherols and tocotrienols, family members of Vitamin E, assuring maximum protection and health promoting benefits.
- The benefits of Vitamin E, commonly known to protect and strengthen heart and blood vessels, modify and stabilize blood fats, enhance circulation, protect the nervous system, increase the body's resistance to infections, and support the skin, eyes and liver.

People using Botana E also use these supporting products:
